
BetaNav | complete training loss history: steps 0-18,000
8 GPUs | global batch 64 | CE + 2 x FM
Total loss: CE + 2 x FM
Token cross entropy (CE)
Flow matching loss (unweighted FM)
Total loss detail: steps 3,000-18,000
Logged training loss
50-point trailing mean
Loss
Global optimizer step
Dotted line: full-data switch at step 3,047. Dashed line in detail: full-data epoch boundary at 12,911.
First measured loss is at step 1; duplicate records from abandoned restarts are removed.
